- **Profile Summary :**

AI Engineering student at ENSIA, honored in 2025 as the top-performing female AI student in Algeria. Strong in AI, particularly NLP and computer vision. Selected to represent Algeria in the Huawei Seeds for the Future international program in China and awarded the Grand Prize in the Huawei ICT Competition 2025–2026 (Cloud Track). Passionate about solving real-world problems using AI.

- **Academic, Research, and Practical Background**
  - Global Grand Prize Winner – Huawei ICT Competition 2025–2026 (Cloud Track)
  - Honored by the President of Algeria Abdelmadjid Tebboune as the top-performing female student in the field of AI 2025
  - Selected to represent Algeria in the Huawei Seeds for the Future international program in China (AI / 5G /Cloud).
  - Degree: AI Engineering, 5th Year at ENSIA - ranked first in the promotion for the past 4 years
  - AI Research Intern at CRAAG (Research Center in Astronomy, Astrophysics, and Geophysics)
  - Baccalauréat (Mathematics Stream)
    - Score: 18.91 (Ranked third nationally in the Mathematics stream, Algeria, BAC 2022)
    - Honored by President Abdelmadjid Tebboune
    - Studied at the Mathematics High School in Kouba, Algiers
- **Some Projects:**
  - ***Sonatrach Project:***
    Developed a solution to predict geological data using ml and neural networks architectures , reducing the need for expensive drilling. Integrated time series analysis to estimate future values.
  - ***High Council of Youth Project:***
    Developed a platform under the supervision of the Ministry of Youth to help volunteers in Algeria connect and collaborate more effectively .
  - ***Wortopia – AI-Powered Educational Platform:***
    An intelligent language-learning app that leverages NLP and voice processing to help users improve writing and pronunciation through interactive book-based learning.

Hard Skills

- Programming Languages:
Python, JavaScript , Dart , C++ ...
- AI Tools & Technologies:
TensorFlow, OpenCV, NLP models
- Data Analysis:
Pandas, NumPy, Matplotlib, Seaborn
- Software Development:
React.js, NextJs , Flask, Firebase , Express , Flutter , Supabase , Postgres, Mysql
- Design & UI/UX:
Canva, Figma, Adobe Design Tools
- tools : Docker , Bloc , getX, figma
- Version Control: Git

Soft Skills:

- Leadership and teamwork
- Problem-solving and critical thinking
- Communication and public speaking
- Creativity and innovation

Languages:

- Arabic (Native)
- English (Fluent)
- French
